

ARZTZEUGNISSE UND RETURN TO WORK

Dr. med. Pia Guldemann
Innere Medizin und Arbeitsmedizin FMH

Inability to work

"Die Arbeitsunfähigkeit ist die durch eine Beeinträchtigung der körperlichen und psychischen Gesundheit bedingte volle oder teilweise Unfähigkeit, im bisher ausgeübten Beruf oder Aufgabenbereich zumutbare Arbeit zu leisten."

Inability to work

- ◎ The most important question is:
 - What kind of work are you doing?

Certificate

- ⦿ Factors that are relevant
 - Different point of view
 - patient
 - company

Certificate

- ⦿ What are the aspects of the company
 - Very often sick
 - Insufficient performance
 - Safety at work

Certificate

- ⦿ It is important to determine the duration of the inability to work
- ⦿ Long term absence:
 - Until the end of the month
 - Until the next consultation

Certificate

- Limitation in ability to work
- Time limitation

 Swiss Insurance Medicine

Return to work

- The longer an inability to work lasts the better the return to work should be planned

Return to work

- A step by step return to work also after a short absence is of proven value

**THANK YOU FOR YOUR
ATTENTION !**
